JSI—Journal of Spectral Imaging is a brand new, peer-review journal published online only. *JSI* publishes papers from all areas where imaging and chemical information are collected concurrently. This includes imaging at scales from wide area (remote sensing), to macro, micro and nano. Techniques include near infrared spectroscopy, infrared spectroscopy, Raman spectroscopy, mass spectrometry, terahertz spectroscopy, magnetic resonance, UV and visible spectroscopy, X-ray spectrometry. Papers on all application areas are included, such as agriculture and plants, food, pharmaceuticals, surface analyses, medicine, art. Data handling and chemometrics are also important areas that are covered.

Papers are published continuously throughout the year, so there are no “issue dates”. Make sure you are part of this exciting new journal in a rapidly developing field of increasing importance.

www.impublications.com/imaging/

As an online journal, *JSI* offers banner advertising throughout its website and sponsorship of the regular e-newsletters sent out to alert readers to new material available online.

First Papers Published

I am delighted to announce that the first two papers in *JSI—Journal of Spectral Imaging* have been published. They are:

[Use of spectral pre-processing methods to compensate for the presence of packaging film in visible-near infrared hyperspectral images of food products](#)
by A.A. Gowen, G. Downey, C. Esquerre and C.P. O'Donnell

[Inverting the PROSAIL canopy reflectance model using neural nets trained on streamlined databases](#)
by Clement Atzberger

Access to all papers published this year and next is free, for ever. So all you need to do to read the papers is to login; there is a lost password facility if you need it.

Call for further papers

JSI will be publishing papers from the IASIM-10 meeting (see below). We would very much welcome other papers from you and your colleagues. We can promise you:

- Free Access to papers published in 2010 and 2011, for ever.
- Careful editing and typesetting to present your paper in its best light.
- Free colour (well it is an online journal!).
- The opportunity to include multimedia (animations, video) within your article and supplementary data (data sets etc.).

To submit a paper, please use our online manuscript handling system at <http://www.impublications.com/authors/>

IASIM-10

Just a reminder that IASIM-10 is being held in Dublin, Ireland, from 18 to 19 November. More details can be found on the conference's website at <http://www.iasim-10.com>, including the latest scientific programme. Its aims are the same as *JSI*'s, to provide a forum for the spectral imaging community regardless of the spectral or spatial range of images.

I hope that you be able to attend IASIM-10 and that you will visit us and find out the latest on *JSI*.

Privacy: This message has been sent to you because you registered for the *JSI* Newsletter. If you no longer wish to receive this newsletter, follow this link to [unsubscribe](#).

Subscriber: If this message was forwarded to you by a colleague and you would like your own copy, please [sign up](#); this is free-of-charge and you will receive around six mailings each year.

First Papers Published!

The first two papers have now been accepted for publication in *JSI—Journal of Spectral Imaging*. We are extremely grateful to the authors for choosing our new journal and hope that they are the start of many!

The two papers are:

- Use of spectral pre-processing methods to compensate for the presence of packaging film in visible-near infrared hyperspectral images of food products
- Inverting the PROSAIL canopy reflectance model using neural nets trained on streamlined databases

To read them, just make sure you are registered with *JSI* and logged in. Or here

All papers published in *JSI* in 2010 and 2011 will be freely available to registered readers, so should receive wide exposure. If you would like to submit an article, please see our [authors](#) section.

Journal of Spectral Imaging

A new peer-review journal

The *Journal of Spectral Imaging* (*JSI*) is a new peer-review journal publishing papers in the rapidly growing field of spectral and chemical imaging. High-quality papers are welcomed from all corners in the field on work where imaging and systems information is obtained at the same time.

During 2010 and 2011, access to papers is free to registered users. After this introductory period, regular subscriptions will apply.

This site also publishes news of developments and products in the field. Make sure you register to access all content.

CALL FOR PAPERS

Interested in submitting a paper to *JSI*?
Visit the [instructions for authors](#) page.
Or go straight to our [Online Submission system](#).

Advertising rates

Web banners

Size (pixels)	for 3 months	for 6 months	for 12 months
Full Banner (468 × 60)	£700/\$1175	£1250/\$2050	£2000/\$3300
Half Banner (234 × 60)	£400/\$650	£700/\$1175	£1200/\$1975

E-newsletter

JSI Scan e-newsletter: £295/\$480 per thousand names

This is sent out approximately once a month, but this does depend on when new papers are published.

Sponsorship

Sponsorship of *JSI—Journal of Spectral Imaging* is possible for six months or twelve months. If you are interested, please contact us to discuss a package that meets your requirements.

Other periodicals

You might be interested in our other periodicals: *Journal of Near Infrared Spectroscopy*, *NIR news*, *European Journal of Mass Spectrometry*, *Spectroscopy Europe* and *Spectroscopy Asia* (the last two are published jointly with Wiley).

Please contact Ian Michael for further information.
